## FROM GREENBRIER.

Special correspondence.]

This community was well represented at Camden yesterday.

Prof. S. A. Clement, of Camden, was here last week in the interest of Benton Seminary.

James Lockhart, who has been sick several days, was able to open school again yesterday.

The dry, hot weather continues, and chills are making their appearance in this community.

The old adage, "Make hay while the sun shines," has been wisely

heeded by the people of this community, and the crop of hay will soon be safely housed.

It is more than likely that the Smith's College and Liberty correspondents will engage in a joint canvass of the county on the war question during the present campaign, provided the former recovers from a cold contracted on a trip up Salt River the first Thursday in August. We attribute his cold to this trip on a Republican liner—which was somewhat crowded—and he was more or less exposed to the chilly atmosphere of that vessel. The gentleman had better come over next time and get on a Democratic boat, for its voyages are less frequent and it is never crowded; in fact, it seldom has enough passengers to man the boat or keep each other company. And, according to reports, if Uncle Sam's treasury hold out, perhaps the latter will be able to make his race financially if not intellectually. So taking everything into consideration, we think they would make a good team. Don't you?

We extend condolence to the bereaved relatives.

The long dry spell was broken last night by a refreshing shower, and it is quite pleasant this morning. The last few days have been very hot and disagreeable to those engaged in saving hay and fodder especially, and the rain is a great relief and will prevent much sickness.

Rev. Tom Nowell will preach at Shiloh next Sunday at 11 a. m. He is an old Benton County boy and is an able preacher, and it will do you good to hear him. Also Rev. T. F. Cason will preach at Shiloh Sunday afternoon. Both are good men, and should have large congregations.
